

Privacy Policy

Last updated: July 1, 2026

1. Introduction and Data Controller

Roomie ("we", "us", or "our") is owned and operated by GIGSRentals. We are committed to protecting your privacy and safeguarding your personal data. This Privacy Policy details how we collect, process, share, and protect your information when you access or use the Roomie platform. Under the Nigeria Data Protection Act (NDPA) 2023, GIGSRentals is the primary Data Controller. By creating an account or using Roomie, you explicitly consent to the collection, storage, and processing of your personal data as outlined in this policy.

2. Lawful Bases for Processing Data

In compliance with Section 25 of the Nigeria Data Protection Act (NDPA) 2023, we only process your personal data under the following lawful bases: (a) Consent: where you have given explicit consent (e.g., uploading profile photos, completing matching bios); (b) Contractual Performance: processing necessary to provide our matchmaking services and fulfill our transaction obligations (e.g. processing the ₦2,000 listing fee); (c) Legal Obligation: compliance with tax laws, fraud prevention, and law enforcement directives; and (d) Legitimate Interests: security audits, spam prevention, and improving matching algorithms.

3. Information We Collect

A. Profile and Registration Information: Includes your full name, email address, phone number, age, gender, university, matriculation year (or enrollment status), profile photograph, roommate lifestyle preferences (sleeping schedule, cleanliness rating, smoking/drinking habits, budget range, and desired locations).

B. Authentication Data: We utilize secure Google OAuth via Supabase for registration and login. We receive your verified email, display name, and avatar from your Google account. We do not collect or store your Google password.

C. Financial Transactions: When you purchase access to housing listings, all payments are managed by Paystack or Flutterwave. We do not store credit card or bank account details. We collect and store only transaction references, timestamps, payment success status, and transaction amounts.

D. Technical and Usage Data: Includes IP address, browser type, device type, operating system version, page view durations, matching swipes, message logs, and broad geographic locations (city-level).

4. How We Use Your Personal Data

We process your personal information to deliver a secure and optimized roommate-matching experience, specifically to: (a) register and maintain your secure user profile; (b) compute compatibility scores and display profiles to matching candidates; (c) process transaction fees and grant database permissions; (d) send you notifications regarding connection requests or platform updates; (e) monitor, detect, and prevent fraudulent listings, scams, and policy violations; (f) conduct server diagnostic checks and optimize layout displays; (g) automatically connect your

account to our official support account (Roomie.app) upon registration for direct customer support, system notifications, and platform onboarding; and (h) fulfill mandatory tax and regulatory filings under Nigerian law.

5. Information Sharing and Disclosure

We do not sell, rent, or trade your personal data to third-party advertisers. Your information is disclosed only in the following scenarios: (a) Platform Users: your profile name, university, budget, age, lifestyle preferences, and bio are viewable by registered Roomie users looking for roommates; (b) Service Providers: we share data with cloud infrastructure provider Supabase (database storage), Vercel (web hosting), and payment gateways (Paystack/Flutterwave) strictly to deliver platform features; (c) Group Companies: with GIGSRentals affiliates to coordinate housing services; and (d) Legal Mandate: to Nigerian law enforcement agencies or courts if requested under a valid warrant or subpoena.

6. International Data Transfers

Your personal data is stored on cloud servers hosted by our service providers (e.g. Supabase, Vercel) which may be located in the United States or the European Union. In compliance with Section 41-43 of the Nigeria Data Protection Act (NDPA) 2023, we ensure that these cross-border transfers are protected using Standard Contractual Clauses (SCCs) and encryption standards that guarantee an equivalent level of security for your data, as mandated by the Nigeria Data Protection Commission (NDPC).

7. Data Security Measures

We implement robust administrative, technical, and physical security measures to protect your personal data against unauthorized access, loss, or manipulation. These measures include: (a) database Row-Level Security (RLS) policies ensuring users can only read authorized records; (b) complete transit encryption via HTTPS/TLS 1.3; (c) tokenized OAuth login protocols; and (d) restricted backend access limits for staff. However, no internet-based service is completely secure; we advise against transmitting highly sensitive personal credentials (such as bank details) to other users in platform chat rooms.

8. Data Retention and Deletion

We retain your profile data as long as your account is active and necessary for matchmaking. If you submit a request to delete your account via profile settings, we will permanently delete or anonymize your personal data within thirty (30) days from our active databases. We will retain transaction and invoice data for a period of seven (7) years to comply with Nigerian corporate tax regulations, after which it will be purged.

9. Your Legal Rights under NDPA

Under the Nigeria Data Protection Act (NDPA) 2023 and NDPR, you possess specific, enforceable rights over your data. These include the right to: (a) request access to the personal data we hold about you; (b) request correction of inaccurate or incomplete profile records; (c) request deletion of your account and related profile details; (d) object to processing or request restrictions under certain conditions; (e) receive your data in a structured, machine-readable format (data portability); and (f) withdraw consent at any time. To exercise these rights, please email our Data Protection Officer at support@gigsrentals.com. If you believe your data has been handled unlawfully, you have the right to lodge a formal complaint with the Nigeria Data Protection Commission (NDPC).

10. Cookie Audit and Consent Management

A. Necessary Cookies: We use first-party session cookies set by Supabase to verify your authentication state, ensure session persistence, and protect against Cross-Site Request Forged (CSRF) attacks. These are essential and cannot be opted out.

B. Analytics Cookies: These help us measure website traffic, visitor demographics, and user behavior. We load these analytics scripts (e.g. Google Analytics) only after you grant consent via our Cookie Banner.

C. Preference & Functional Cookies: Used to store your app customizations, such as sidebar state, layout choices, and onboarding step records.

11. Data Protection Officer (DPO)

We have designated a Data Protection Officer to oversee our privacy framework. If you have questions, complaints, or wish to exercise your rights, please address your inquiries to: Data Protection Officer, GIGSRentals Legal Dept, Lagos, Nigeria, or email support@gigsrentals.com.

12. Updates to This Policy

We may modify this Privacy Policy from time to time to reflect changes in regulatory standards or Platform updates. We will notify you of any material updates via an in-app banner, email, or a prominent notice on the home page prior to the modifications taking effect. The "Last updated" date at the top of the policy page will indicate when changes were last implemented.
